Certification of Compliance with Applicable Service Quality Standards and Consumer Protection Rules for Voice and Broadband Services

Service quality standards and consumer protection rules for broadband are not as defined as the rules for voice services. The Company complies with any service quality standards and consumer protection rules for broadband that are out there now and any that will be defined in the future.

Service Quality Standards

For voice services, the Company:

- Provides voice grade access to the public switched network.
- Provides flat rated local exchange service with no additional charge to end users.
- Provides access to the emergency services provided by local government or other public safety organizations, such as 911 and enhanced 911.
- Provides toll blocking and toll limitation services.

For voice and broadband services, the Company:

- Advertises the availability of its services and the charges using media of general distribution and/or on its website.
- Maintains a business office providing customers with access to a customer service representative either in person or via a local telephone call or toll-free telephone number during business hours.
- Directs after hour calls to the Company's voice mail or help desk.
- Directs trouble reports to the on-call technician.
- Tracks all service orders to ensure they are completed in a timely manner.
- Measures its service connection and service interruption performance on a regular basis.
- Trains employees to:
 - Answer all incoming calls promptly.
 - Respond to all inquiries for information promptly and courteously.
 - Investigate thoroughly all customer complaints and handle appropriately according to the Company's guidelines for resolution of customer complaints.
 - Be knowledgeable about products and service offerings so they can assist the customer with selecting the best service option.
- Has a process for periodic inspection, testing and preventive maintenance of its equipment to permit the rendering of safe, adequate and continuous service at all times.
- Meets or exceeds the standards established by the state commission and provides any reports required in accordance with the state commission's rules.

Consumer Protection Rules

The Company has established operating procedures designed to facilitate compliance with applicable consumer protection rules which include compliance with the Customer Proprietary Network Information (CPNI) rules. The operating procedures include:

- Appointment of a compliance officer.
- A manual detailing the specific procedures for protecting consumer information.
- Employee training on an annual basis.
- A disciplinary process for improper use of consumer information.

If complaints are filed with the Company regarding consumer protection rules, the complaint is immediately investigated, the matter tracked and any corrective action noted. This process ensures that problems are addressed and corrections made.

Ability to Remain Functional in Emergency Situations FCC Form 481 – Line 610

- 1. Three River Communications (TRC) has been providing high quality service in Nebraska since 2004. This includes operating in adverse conditions including blizzards, ice storms, thunderstorms, tornadoes and during prolonged power outages. TRC's management team, plant supervisors, plant technicians and customer service representatives have the training, experience and equipment necessary to respond to, manage and operate in emergency situations.
- 2. Three River Communications follows applicable Rural Utilities Service (RUS) Telecommunications program practices and guidelines including the Telecommunications Engineering and Construction Manual (TE&CM) and other industry standards available to small telecommunications carriers. Three River Communications also meets the requirements of the Nebraska Public Service Commission (NPSC) as applied to local exchange service.
- 3. Back-Up Power
 - 3.1. Central Office
 - 3.1.1. Three River Communications maintains storage batteries designed to provide a minimum reserve capacity consistent with RUS TE&CM 1751E-302, Power Requirements for Digital Central Office Equipment. 1751E-302 paragraph 2.3.4 recommends a minimum reserve capacity of 8 hours, or 3 hours if the central office is equipped with an emergency standby generator. This is consistent with Title 291, NPSC Telecommunications Rules and Regulations, Chapter 5, paragraph 002.05 Emergency Operations and Power.
 - 3.1.2. Three River Communications maintains a dedicated standby generator fueled with a 1000 gallon reserve supply of liquid propane gas (LPG). The standby unit is equipped with an automatic transfer switch so that in the event of an interruption of the commercial electric power lasting more than a few minutes, the standby generator starts automatically and provides electrical power to the central office equipment, air conditioning and building lighting. The automatic transfer switch also exercises the standby unit periodically and an alarm indication is sent if the standby generator does not start so that telecommunications personnel can perform proactive maintenance.

Ability to Remain Functional in Emergency Situations FCC Form 481 – Line 610

3.2. Remote Equipment Cabinets

3.2.1. Where electronic equipment in cabinets located remotely from the central office, is used to provide service, the cabinets are equipped with batteries designed to operate for a minimum of eight hours without commercial electrical power. In addition, TRC maintains portable AC standby generators for use in the event of prolonged commercial power interruptions and the cabinets are equipped with external receptacles to facilitate connection to portable generators.

4. Rerouting Traffic around Damaged Facilities

- 4.1. In the event of damage to cable facilities owned by Three River Communications, our maintenance personnel would restore service using emergency splice kits kept on hand for these types of service disruptions. If the damaged facilities are not owned by Three River Communications we would work with the carrier directly affected to identify the source of disruption and the estimated amount of time before service is restored.
- 4.2. In the event of an extended outage, contact would be made with another service provider which has a separate, physical cable connection with TRC to provision temporary alternate routes supporting originating and terminating toll calls. Emphasis would first be placed on establishing connections to nearby PSAP, law-enforcement and emergency services.

5. Managing Traffic Spikes

- 5.1. Three River Communications meets Title 291, NPSC Telecommunications Rules and Regulations, Chapter 5, paragraph 002.12 <u>Dial Service Objectives</u> for sufficient central office capacity and equipment during the "...average busy hour-busy season..."
- 5.2. Three River Communications follows applicable RUS practices 522 and 322 when specifying, administrating, and assigning facilities within its control (as opposed to facilities ordered by connecting interexchange carriers).

Ability to Remain Functional in Emergency Situations FCC Form 481 – Line 610

- 5.3. The Ainsworth central office switch is a Genband DMS-10 operating at the 602.20 software release. The Ainsworth DMS-10 is equipped with 875 access lines. The DMS-10 is designed to support up to 12,000 access lines by adding line and trunk interface equipment and network equipment only. In its current configuration the Ainsworth DMS-10 has additional capacity over and above the minimums specified to meet NPSC and RUS guidelines.
- 5.4. When traffic volumes greatly exceed specified criteria and additional capacity of the switch or connecting facilities, the DMS-10 continues to process calls but with potentially longer waiting times for dial tone, higher post-dialing delays and a higher probability of callers receiving all trunks busy indications (fast busy) and having to redial calls. Depending on the magnitude and duration of extreme peak demand, TRC would examine alternatives such as provisioning additional facilities and work with connecting carriers to expedite additional capacity.

Nebraska Telephone Assistance Program Terms and Conditions

Nebraska Telephone Assistance Program

The Nebraska Telephone Assistance Program (NTAP) is available for qualifying customers of Three River Communications, LLC (the "Company"). NTAP assistance reduces the cost of basic, monthly local telephone service. Eligible consumers can receive up to \$12.75 per month in discounts. In addition, the Federal Universal Service Charge is not assessed to consumers participating in NTAP. Toll Blocking prevents the placement of all long distance calls for which a subscriber would be charged. Toll blocking is available to eligible consumers at no cost. Also, by choosing this option, consumers are usually not charged a deposit.

NTAP is administered by the Nebraska Public Service Commission.

NTAP Eligibility Information

Program Based Eligibility

To qualify for NTAP, subscribers must either have an income that is at or below 135% of the Federal Poverty Guidelines, or the subscriber, one or more of the subscriber's dependents, or the subscriber's household must receive benefits from one of the following assistance programs:

- Low-Income Home Energy Assistance Program (LIHEAP)
- Federal Public Housing Assistance (Section 8)
- Medicaid
- Children's Health Insurance Program/Kids Connection (SAM, MAC or EMAC)
- Supplemental Nutrition Assistance Program (SNAP); (formerly the Food Stamps Program)
- Supplemental Security Income (SSI)
- Temporary Assistance for Needy Families (TANF)
- National School Lunch Program Free Lunch program
- State assistance programs (if applicable)

To receive an NTAP application, contact your local *Health and Human Services* agency caseworker or the *Nebraska Public Service Commission*, 1200 N Street, Suite 300, PO Box 94927, Lincoln, NE 68508-4927, Phone: 402-471-3101, Toll Free: 1-800-526-0017 or https://ntap.gisworkshop.com/

NTAP applicants must present documentation demonstrating eligibility either through participation in one of the qualifying federal assistance programs or through income-based means.

Acceptable documentation of program-based eligibility includes: current or prior year's statement of benefits from a qualifying state, federal or Tribal program; notice letter of participation in a qualifying state, federal or Tribal program; program participation documents; or another official document evidencing the consumer's participation in a qualifying state, federal or Tribal program.

Income Based Eligibility

For each additional

person, add

\$5,481

In addition, consumers are eligible for NTAP if their household income is at or below 135% of the federal poverty guidelines.

Household Size 48 Contiguous Alaska Hawaii States and D.C. 1 \$15,755 \$19,683 \$18,117 2 \$21,236 \$24,422 \$26,541 3 \$26,717 \$33,399 \$30,726 4 \$32,198 \$40,257 \$37,031 5 \$37,679 \$47,115 \$43,335 6 \$43,160 \$53,973 \$49,640 7 \$48,641 \$60,831 \$55,944 8 \$54,122 \$67,689 \$62,249

2014 Federal Poverty Guidelines - 135%

Acceptable documentation of income eligibility includes: prior year's state, federal or Tribal tax return; current income statement from an employer or paycheck stub; social security statement of benefits; Veterans Administration statement of benefits; retirement/pension statement of benefits; unemployment/workmen's compensation statement of benefits; federal or Tribal notice of letter participating in General Assistance; or a divorce decree or child support award or other official document containing income information.

\$6,858

\$6,305

Numbers of Minutes-of-Use Provided as Part of NTAP Program Service

The Company's Voice NTAP service includes unlimited local minutes-of-use within the toll-free calling area. The Company's Voice NTAP Plan does not include any free minutes-of-use for toll. Toll is billed at the standard toll rate depending on which interexchange carrier the consumer subscribes to for toll service. As part of the NTAP service, Toll blocking is available to eligible consumers at no cost.

Rates

Subscribers may receive the NTAP credit on any type or grade of local service, including bundled services that are normally offered by the Company. Advertised rates to not include any applicable taxes or surcharges.

Recertification of NTAP Eligibility

NTAP recipients are required to recertify their eligibility annually. Failure to properly recertify a recipient's continued eligibility for NTAP will result in termination of the NTAP recipient's monthly NTAP discount and de-enrollment from NTAP.

Additional NTAP Program Information

NTAP is limited to one benefit per household, consisting of either wireline or wireless service. A household is defined as an individual or group of individuals who live together at the same address and share income and expenses. NTAP is a government benefit program, and consumers who willfully make false statements in order to obtain the benefit can be punished by fine or imprisonment or can be barred from the program.
